MELGIS

2021

GEOGRAPHICAL ASPECTS:

The vines of Fetească Neagră grow on a slightly hilly terrain with mixed composition of clay and limestone.

Coordinates: 45°49'59" N, 21°35'23" E

Altitude: 220 m over sea level

Climate: Continental (-15 °C in winter to +40 °C in summer)

Soil: clay and limestone

Rainfall: 600 to 800 mm per year

VINEYARDS:

Variety: Fetească Neagră

Land management spring tillage and cultivation of different herbaceous plants to enrich the soil with organic materials in autumn.

Vineyard management: the plants are managed entirely by hand and the phytosanitary treatments follow the indications of organic viticulture. During the summer the fruit load is reduced to increase the quality of the grapes.

Training system: Guyot with 5.550 plants / ha

Production: 580 ml / plant

CELLAR:

Manual harvest

Manual sorting of the bunches and berries

Fermentation in conical oak tanks for 15 days at a controlled temperature

Malolactic fermentation in oak vats and barrels

Aging in oak containers of different sizes (barrels, casks, vats) for a period of 9 months.

GENERAL INFORMATION:

Designation: DOC Receaș

Alcohol: 15%

Acidity: 6 g/l

Sugar: 2.5 g/l

Aging in wooden barrels: 9 months

Aging in bottles: 6 months

Store at 14 °C in the dark in a dry place

Serve at 18 °C

Pairing: red meat and game

Packaging:

Caseloads with 6 bottles of 0.75 litres (31x26x18h cm) weight 8.2 kg;

1 Europalet (120x80x185h cm) with 600 bottles of 0.75 litres,

weight 824 kg
